Good Afternoon,

The Red Lake Nation Childcare is the lead agency that provides all childcare for the Nation – having just opened the public schools and most programs have opened back up childcare needs are becoming overwhelming.

As the pandemic has evolved we have been adapting our policies to meet all CDC and MDH guidelines – These dollars will supplement our current needs for supplies and technical assistance for our staff and communities.

This plan continues to develop as needs are exposed.

Miigwech,

Jerry
